A LETTER FROM THE OWNER

WELCOME TO JACOBS FIELD,

HOME OF THE CLEVELAND INDIANS AND BASEBALL'S BEST FANS!

Professional baseball in Cleveland is one of our city's oldest traditions. As one who has enjoyed Indians Baseball at League Park, Cleveland Stadium, and Jacobs Field, the 2001 season—in which we will be celebrating our historic 100th Anniversary as a charter member of the American League—has special meaning.

One of the great pleasures of our first year of ownership was getting to truly understand how special Indians Baseball is to you. During my walks around the Ballpark and at various speaking engagements throughout the community, I enjoyed receiving your input about our organization.

We have an array of special events and promotions planned for the 2001 season to connect our rich heritage with the excitement of today's players. Whether you're sitting in the stands at Jacobs Field, listening on radio, watching on television, accessing game and player information through our website, or reading the newspaper, your enjoyment of Indians Baseball is our main objective.

On behalf of the players and the entire front office staff, we thank you for your remarkable support. We look forward to providing you with the very best in sports entertainment. Together, we will continue the excitement and success of Indians Baseball in Cleveland.

Sincerely,

Larry Dolan
President and Chief Executive Officer

Jacobs Field Ground Rules 118

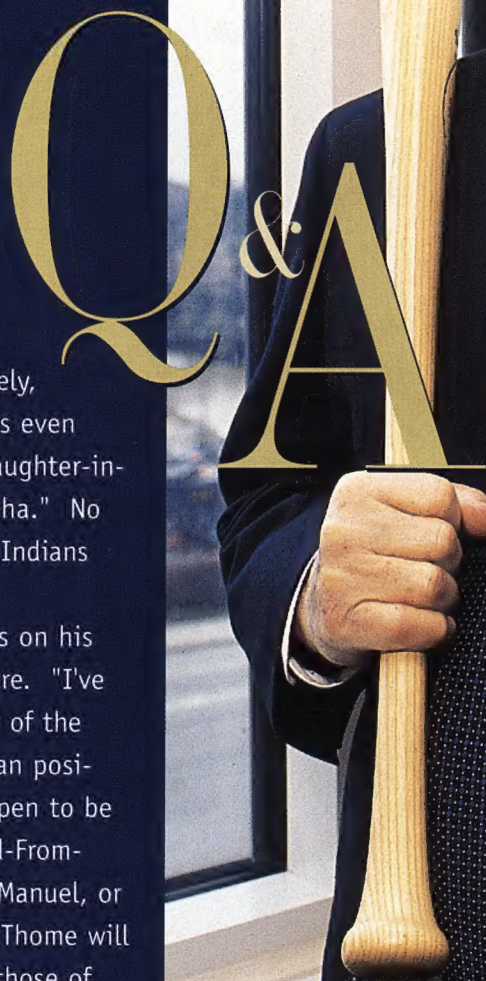

The home plate woven into the carpet in front of Larry Dolan's desk seems incongruous until one remembers he was a pretty good high school and sandlot catcher in his youth. Dolan's playing position remembered, the rest of his fourth-floor office at Jacobs Field makes sense.

Former catcher Dolan's desk sits right behind the carpet's home plate. On the opposite wall hang three large, round pieces of carpet, decorated like baseballs. Each seems to be driven into what would be the left-centerfield power alley. From behind the desk, it seems Kenny Lofton would have little trouble making the plays.

On the right wall hangs another piece of baseball-related art, telling as much about Dolan as the home plate in the carpet and his desk-cum-backstop; a framed painting of a hitter making contact. The painting speaks volumes about Dolan in that there are many subtle shades of blue and many subtle details not seen until one looks closely, like Dolan himself. The painting says even more when Dolan says, "That's my daughter-in-law's work. Our son Matt's wife, Leisha." No doubt, family is as important to the Indians owner as the Indians.

Dolan's description of the reviews on his recently redecorated office reveal more. "I've had mixed reviews on the decoration of the office," he says. "More negatives than positives. But that's OK with me. I happen to be one of the positives." Obviously Bud-From-Berea's talk-radio opinion of Charlie Manuel, or John Hart, or Robbie Alomar, or Jim Thome will carry as much weight with Dolan as those of the decor critics: Dolan might listen. He'll still do what he thinks is right.

FOX Sports Net's Bill Needle recently met with Larry Dolan in the owner's fourth-floor office for a conversation on the 2001 Indians.

Bill Needle: Is the honeymoon still going on?

Larry Dolan: No (laughs), we've had a couple of quarrels going on about things. Let's say the love affair is still going strong, but the honeymoon, I think, is just about over.

BN: And those quarrels have been about what?

LD: The signings and the lack of signings. From a public relations point of view, I think the fans understood what we did—or did not do—with Manny. We didn't do a good job with Sandy.

With Larry Dolan By Bill Needle

What we did with Sandy, I think, was appropriate. But how we did it...I think we could have done a better job.

BN: Other than this being your second year as owner, what's different this year at this time than a year ago?

LD: I feel a keener sense of urgency to win. I can remember after Opening Day last year, beautiful day, everything went fine, I thoroughly enjoyed it, it was wonderful, and I can remember saying to somebody on the way out, 'What a great day. The fact that we lost doesn't mean a thing.'

Well, we missed the playoffs by one game. If we had won that opening game, we'd have made the playoffs. Now, I've got an "Every Game Counts" mentality.

Now, that probably isn't very good for me. But now I feel very connected to winning and losing every game.

BN: Most athletes believe "Don't get too high when you win and don't get too low when you lose." It is, after all, a 162-game season. Could your "Every Game Counts" mentality possibly come to crossed purposes with your players' need to stay on an even keel over a long season?

LD: I'm not going to go into the locker room and bang my fists on a locker after a game. That feeling about every game is a personal one, not one to be expressed by the owner.

I sat and watched Cleveland in Boston last year go up seven-to-nothing and then saw that collapse. I think I saw some times when the players weren't providing the intensity. But I've never played 162 games in one year. I know it's difficult, but I want them to be aware that you can't throw away games.

I have no intention of giving a "halftime" speech to the players. It would be inappropriate. But I see the players. I bump into them. I think they're going to get a sense that I feel very strongly about that aspect.

BN: Did it seem like a long year? Did it go quickly?

LD: Looking back, it just whizzed by. I don't even remember the first two months, things were going so fast.

Photo: Gregory Drezdson

Q&A With Larry Dolan

BN: Was it a good year? How would you characterize the first season?

LD: It's difficult to put a label on it. I had a lot of fun. I learned a lot. I made some mistakes. I hope I learn from the mistakes.

BN: What did you learn?

LD: Dealing with the press, in parts. Dealing with the staff, in parts. The biggest part was myself. You really have to pace yourself in this game. It's a business that has an annual report every day. I got a little caught up in the games. I think I need to keep some of the things further away - and deal more with some of the other things in my life.

BN: Were there any lessons you learned about Larry Dolan, the individual?

LD: There were times when I thought, 'Hey, Larry, you didn't do too bad—I didn't know you could do that.' Other times, it was, 'Larry, you talk too much sometimes.' It's a process. It goes on, I guess.

BN: Does Charlie Manuel have to take your club to the playoffs to retain his job?

LD: I won't comment on that.

BN: Many critics have suggested the Indians farm system is not as strong as it has been because of trades for immediate help for the Major League team. Fair to say?

LD: Of course it is. Look at the players you're talking about. You develop a farm system not solely so those players will play on your Major League team. You develop a farm system so your Major League team can be as good as it possibly can.

When we get players who are ready to blossom, to play in the Majors, and there's already an All-Star at that player's position, what do we do? Do we just keep sending them back to Buffalo, letting them rot?

No, I think you take your talent and use it to fill in where you have voids. Now, do you get enough in a given situation? How do you tell?

BN: Could that philosophy create a vacuum? In that when an All-Star turns 39 or 40, there's nobody ready to take his place?

LD: That's the art. We traded Brian Giles to Pittsburgh for Ricardo Rincon, who was just about the best left-handed reliever in the National League that year—but has not yet translated that to the American League.

Now we could use a Brian Giles. If we had him, we wouldn't have had to make some of the more expensive moves we did for this year.

Q&A With Larry Dolan

You always try to keep your pipeline full. Now, ours happens to be filled with good, young pitching. Our baseball people are very, very excited about the young, talented pitching staff that we have at AAA Buffalo. The position players aren't there at the depth you want them to be—we've got five high draft picks this year. We'll address the position situation.

But it's unreasonable to expect you're going to get a constant flow of high-quality Minor Leaguers. I think the scouts and the folks in the front office have done a great job of providing us with a great deal of talent.

BN: Do you sense this is an aging team?

LD: That's the conventional wisdom. But why wouldn't that be the process? You get good players when they're young and they continue to be good—and all of a sudden, they're getting older. And, all of a sudden, that's bad for some reason.

Our signing of Omar Vizquel, the best defensive shortstop in the game, to an extension, so it can facilitate his connection to this franchise forever, is our reaction to those who think this veteran team is somehow hurt by its professionalism and experience.

BN: How much does this collection of All-Stars at almost every position have left?

LD: I don't know. Last September, it looked like they had a whole lot left. I think this team we're putting on the field in 2001 is as good as any team we've put on the field since Jacobs Field opened.

BN: Including the pitching?

LD: There is a lot that we like about our pitching in 2001. The 2001 staff is balanced. It's got experience and youth. If we have a breakdown like we did last year, going to our Minor League system will be a positive. We are excited about our pitching staff at AAA Buffalo. We have some great young arms. The Major League staff has arms that are already proven. How will they perform? Who knows? Based on the record of the people we have, this is as good a team as we have ever put on the field.

Photo: Gregory Drezdson

BN: What's the biggest question you face?

LD: For the year 2001, it's very simple—health. Stay healthy. If this team stays healthy, I'm very optimistic.

BN: Your team used 32 pitchers, yet still won 90 games, but finished out of the playoffs. Is it a concern to you that they're perceived as having had a bad year?

LD: It's a great concern to me. I would much more prefer the fans realize how good the baseball is. If another team comes in and plays better baseball, all the better. But in today's world, good baseball isn't enough. You have to win in order to realize the economic success that's necessary to continue to challenge for the titles.

BN: The fans play a vital role in the economic success equation, do they not?

LD: We cannot say it enough—the Cleveland Indians are a Ballpark-revenue driven franchise, and ticket sales plays a pivotal role in our ability to provide our fans with both a ballclub that has a legitimate chance to win and an entertaining setting in which to enjoy it.

CLEVELAND INDIANS CHARITIES

Cleveland Indians Charities (CIC), the charitable arm of the Cleveland Indians, was established in 1989 to make a positive contribution to the quality of life for Northeast Ohio youth by providing educational and recreational opportunities. It is the intent of CIC that the contributions made to these organizations will energize thousands of kids to face today's challenges with courage and responsibility.

Since 1989, CIC has donated nearly \$3.5 million to local organizations that serve the youth of Northeast Ohio. CIC has established relationships with several local organizations that focus on youth education and youth recreation. The following organizations benefit from a continued partnership with CIC:

- Cleveland Municipal School District
- Boys & Girls Clubs of Cleveland
- United Black Fund Larry Doby Reviving Baseball in Inner Cities Program
- City of Cleveland Division of Recreation Rookie League Program
- Cleveland Baseball Federation
- North American Indian Cultural Center
- Cleveland State University
- Winter Haven (Florida) Boys & Girls Club

The relationships that CIC maintains with these Northeast Ohio youth-service agencies provide the opportunity to jointly create, design, and execute programs and activities. The result is programming which helps young people develop necessary life skills, learn responsibility and cooperation, and develop courage and confidence to face today's hurdles.

The monies donated by CIC have been raised through a variety of activities and programs, including the Online Auction, the CIC Celebrity Golf Classic, Picnic in the Park with the Stars, Jacobs Field Tours, the Pepsi Corporate Hitting Challenge, and numerous other special events throughout the season. In addition, a major portion of the total was raised through the generosity of Cleveland Indians corporate partners.

In 2000, for the sixth straight year, CIC donated \$100,000 to the Cleveland Municipal School District's Athletic Department. The \$100,000 donation will help defray the cost of its high school baseball and softball programs. CIC also made significant donations to the following organizations in 2000: Boys & Girls Clubs of Cleveland (\$100,000); The United Black Fund (\$60,000) for the operation of the Larry Doby RBI (Reviving Baseball in Inner Cities) Program; the city of Cleveland Division of Recreation (\$45,000) for operation of the Rookie League Youth Baseball Program and a girls softball program; and Cleveland Baseball Federation (\$25,000).

The Cleveland Indians organization and its players have a unique opportunity to make a positive impact on the youth of Northeast Ohio. It is an opportunity and responsibility we embrace.

First baseman Jim Thome (far left), pitcher Dave Burba (fourth from right, back row), and manager Charlie Manuel (second from right, back row), participated in the festivities when CIC presented the Cleveland Municipal School District with \$100,000 to support their baseball and softball programs
